## SKILLS

Node.js, JavaScript, React, Redux, MongoDB, Express.js, Ruby, Rails, HTML5, CSS3, SQL, Apollo / GraphQL, jQuery, npm, AJAX, AWS, Docker, Git, Github

## PROJECTS

Modern | **MongoDB, Express, React, Node - MERN Stack**

[Live](#) | [GitHub](#)

*Full stack clone of Medium*

- Incorporated the **Cloudinary API** for storage and retrieval of images.
- Implemented user authentication using the **JSON WebToken** library, **Axios**, and **JWT-Decode**.
- Utilized **Mongoose ORM** to map the results of database queries onto JavaScript objects which can be manipulated and returned to the frontend, separating concerns and following MVC best practices.

Picturesque | **Rails, PostgreSQL, React, Redux, AWS, Sass**

[Live](#) | [GitHub](#)

*Full stack clone of Instagram*

- Utilized **React** and **Redux** to create a single-page application with a global source of truth.
- Improved user experience and **authentication flow** by designing custom, responsive React components.
- Utilized a **FileReader** object using **AJAX** to asynchronously read the contents of files and upload them to the server.

Plutus | **GraphQL, Node, Mongoose, Apollo, Websocket, Cloudinary**

[Live](#) | [GitHub](#)

*Full stack web application implementing live-bidding for collectible goods*

- Implemented real-time bidding functionality via **Websocket** and the **Apollo client cache**, enabling users to view the live price when they join the bidding.
- Integrated the **Google Maps API** to display item location. Users can check for legitimacy, interact with products and view items in more detail.
- Utilized **CSS Grid** to create a responsive website with functionality across platforms and screen sizes.

## EXPERIENCE

Surgical Buyer / Materials Specialist | *Dignity Health (SFMH)*

Mar 2013 - Jan 2019

- Responsible for cost containment in the entire procedural care area.
- Accountable for over \$5M worth of inventory summing to 3000+ supplies.
- Actively worked with over 30 surgeons, 60+ staff members and hundreds of sales representatives to ensure quality and success in the operating room during, pre and post-procedure.
- Conducted trend analysis, reviewed the surgery schedule, followed through with open orders and backorders, and monitored PAR levels for inventory accuracy.
- Interviewed, gave input and participated in hiring new talent.

Marketing Director | *VertUp*

Jan 2012 - Sep 2017

- Followed trends and kept up-to-date on client needs, and what drives sales using social media and creative marketing.
- Successfully closed numerous real estate deals while working on small and large projects with real estate developers and planning departments.
- Maintained relationships and contracts with lenders and financial institutions, as well as buyer and seller parties.

## EDUCATION

Full Stack Web Development | *App Academy*

Mar 2019 - Oct 2019
